

Let us guide the way

Protech is your source for guided surgery

Guided Implant Surgery (GIS) offers clinicians guided techniques at the time of surgery using a prefabricated fixed prosthesis, based on planned implants position, able to connect newly inserted implants and to easily achieve a functional and aesthetic immediate loading.¹

By working with Protech, clinicians will have access to a precise guided implant placement technique using a customized patient-centric approach, offering:

- ▶ High Level of Predictability
- ▶ Restorative Driven
- ▶ Highly Efficient
- ▶ Simplified Surgery
- ▶ Liability Mitigation
